Over Many Horizons

Keith Armstrong

Opening: Tuesday 2 August 6 - 8pm

Opening address by Dr. William Gladstone, UTS School of Life Sciences

Exhibition dates: 2 August - 23 September 2016

[UTS Gallery](#) is pleased to present [Over Many Horizons](#), a major solo exhibition by [Keith Armstrong](#). Armstrong's multimedia practice – incorporating innovative performance forms, site specific electronic arts, networked interactive installations, alternative interfaces, art-science collaborations and socially and ecologically engaged practices – seeks to explore the great ecological and social justice issues of our time. [Over Many Horizons](#) investigates the environmental, social and cultural ecologies that form our worlds, asking how we might reinvent ourselves as a future-sustaining species.

The exhibition is accompanied by [a series of talks, workshops and schools activities for National Science Week](#), [Sydney Science Festival](#) and [Sydney Design](#).

UTS Gallery is now open on Saturdays, 12 - 4pm.

This project has been assisted by the Australian Government through the Australia Council for the Arts, its arts funding and advisory body.

Keith Armstrong is a Senior Research Fellow at QUT, Creative Industries, Brisbane, Australia. He directs the transdisciplinary arts organisation, Embodiedmedia.

This exhibition and its associated programs are supported by the Inspiring Australia initiative, supported by the

Australian Government as part of National Science Week. We also thank UTS Science for their support.
