129 Vlei Avenue, Roodewal

A celebration of our diverse humanity through intercultural performances including poetry, music, artwork by ex-offenders and handing over the mobile stage to the Lesedi Multi-purpose Community Development Village.

This trio of events builds on Australian artist Keith Armstrong's collaborative media arts project Re-Future (2016-2017), initiated by PIAD, with Qala Phelang Tala to empower residents of informal settlements in Mangaung to generate images of the social and ecological futures that they imagine, and are building. 'Staging Change' employs a mobile stage/artwork to share the narratives and learnings from this project.

This project has been assisted by the Australian Government through the Australia Council, its arts funding and advisory body
